Getting Started

Product Standard Accessories

The following items are in the product box.

Accessory	Name
	Extended battery pack (5,700mAh)
	AC/DC power supply
	Country plug (UK / US / EU / KR plug)
	USB type C cable
	Stylus pen and tether
	LCD protection film
	Handstrap

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Getting Started

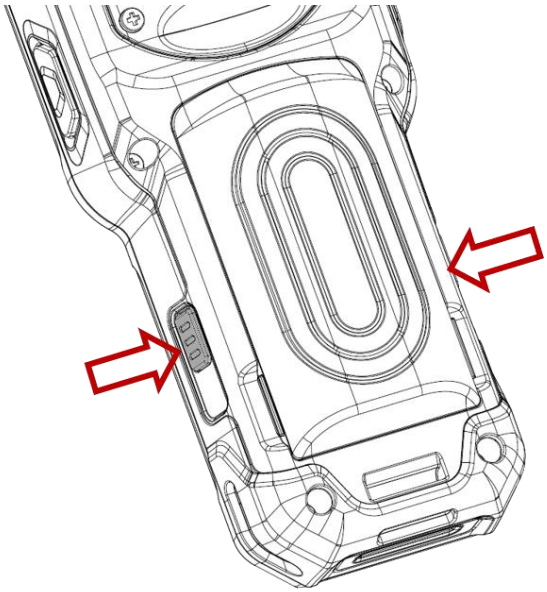
Setup

Install & Remove Battery

Remove the battery

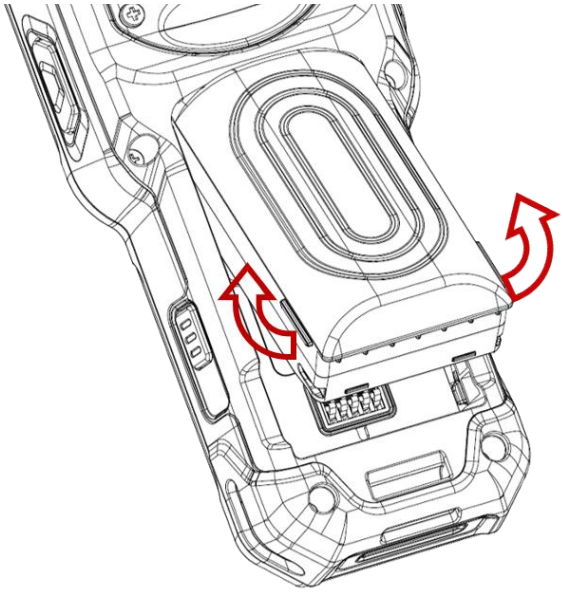
1. Press and hold left & right battery lock simultaneously to release the battery

Figure 3 Press battery lock



2. Pull up the bottom of the battery to remove from the device and release the battery lock

Figure 4 Remove battery



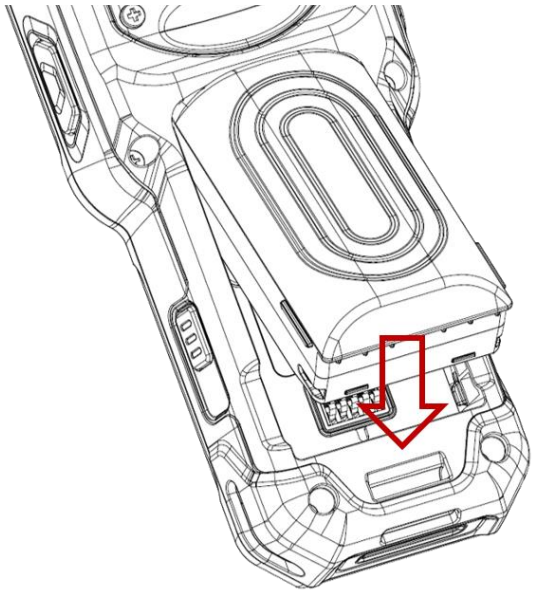
©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Getting Started

Install the battery

Insert the top of the battery first, and then push down the bottom. Make sure the battery is attached firmly.

Figure 5 Install battery



©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

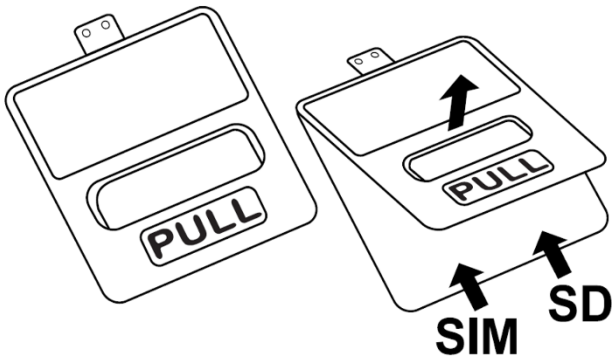
Getting Started

Install SIM card & SD card

PM451 supports micro SIM card(LTE SKU only) and microSD card. Following the steps below, install the cards in the correct slot and the correct orientation.

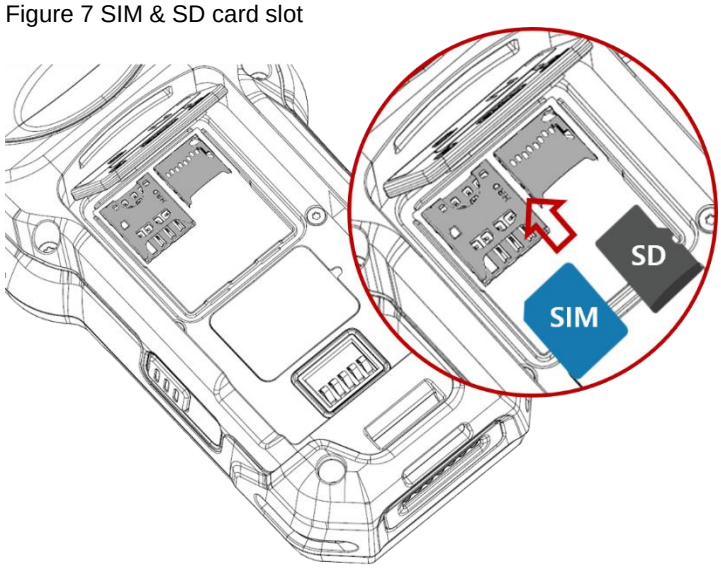
1. Remove the battery
2. Pull the SIM & SD card slot cap using the hole.

Figure 6 Open SD & SIM card slot



3. Referring to **Figure 7**, insert the cards in the correct orientation. Facing down the gold contact of the cards, insert a micro SIM card on the left and a microSD card on the right.

Figure 7 SIM & SD card slot



4. To remove the card, gently slide it out of the slot

Caution: *Use micro SIM card and microSD card only.*

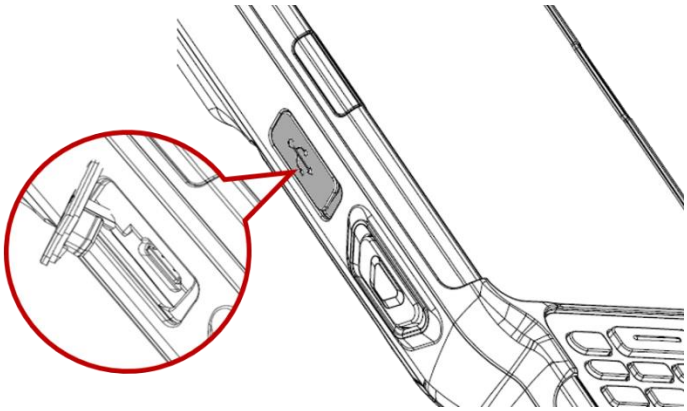
©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Getting Started

Charge the device

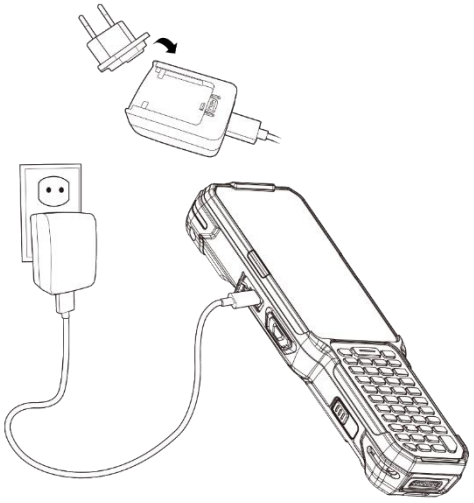
1. Open the cap of the USB connector on the left side of the PM451

Figure 8 Open USB cap



2. Assemble the proper country plug and the AC/DC power supply
3. Plug USB type C cable to the AC/DC power supply
4. Connect the cable to PM451 and provide power by plugging the power supply to the wall socket

Figure 9 Charge PM451



Caution: *Always use an original charger and cable from Point Mobile. Other chargers and cables may damage PM451. Also, make sure the charger and cables are not wet.*

Battery Specification

Battery Type	Capacity	Charging time
Extended Battery (Basic)	5700mAh / 3.7V	About 5 hours
Standard Battery	4000mAh / 3.7V	About 4 hours
Backup Battery	60mAh / 3.7V

Getting Started

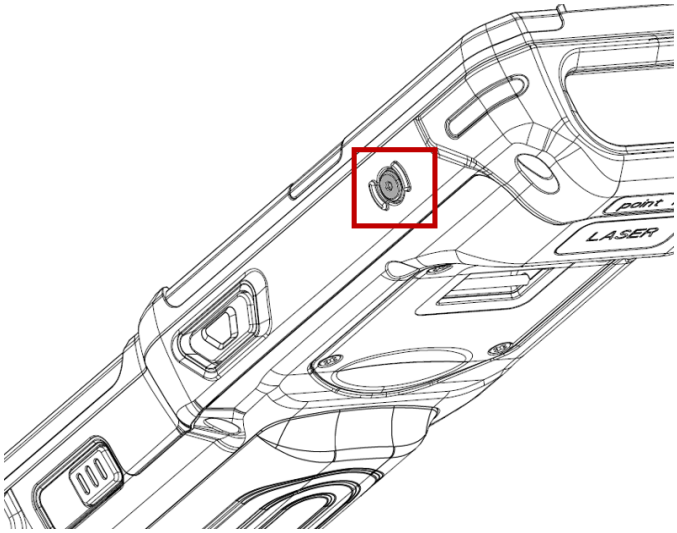
Turn on & off the PM451

Turn on

1. Press and hold the **Power** button on the right side of the PM451 for a few seconds

Figure 11 Power button



2. When **SMART BEYOND RUGGED** logo displays on the screen, release the button and wait until PM451 finish booting

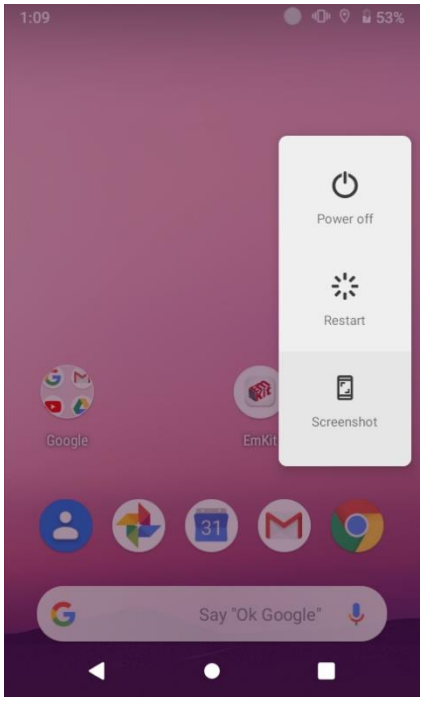
©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Getting Started

Turn off

1. Press and hold the **Power** button until the power menu is shown
2. Tap **Power off** among the menu

Figure 12 Power menu



Battery Hot Swap

PM451 provides the Battery Hot swap mode which allows you to replace the battery without turning off the device. When the battery is removed from the device, the display turns off and the device enters Hot Swap mode. In Hot swap mode, data is retained for a while. Once you replace the battery to a new one and lock the Battery lock firmly, the device comes back to normal operation mode without the booting process.

Learning the basics

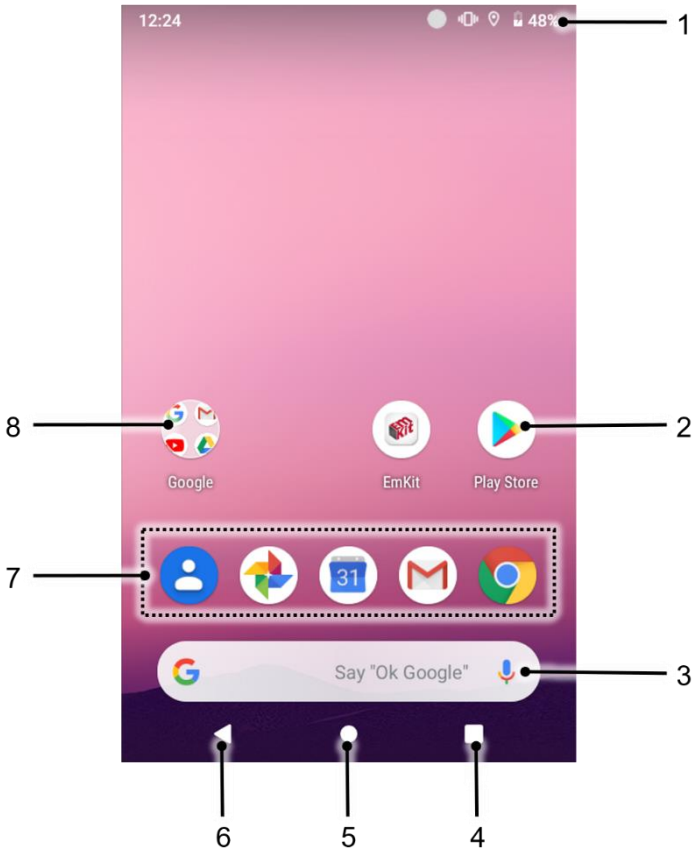
Home Screen

Home screen is a screen you can see when you complete the Setup wizard, press the **Home** button, or unlock the screen.

Figure 15 Home screen



No	Item	Description
1	Status bar	Indicates device status and notification.
2	App	Tap to run the application Long-press to see the application's options
3	Widgets	Simply communicate with the applications on the Home screen
4	Recent apps	Tap to show recently used applications
5	Home	Tap to go to the Home screen
6	Back	Tap to go to the previous screen
7	Favorites tray	Place the frequently used apps
8	App folder	Apps are organized in the folder. Tap to open the App folder

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Learning the basics

Status Bar

You can see the time, status icons, and notification icons on the Status bar.

Status icons

Icon	Description	Icon	Description
	EDGE connected		Strong signal
	GPRS connected		Good signal
	3G connected		Weak signal
	LTE connected		Connection issue
	No SIM card installed		No data connection
	Airplane mode		Hotspot enabled
	Data communication		
	Wi-Fi turned on		Connected to a Wi-Fi network
	Bluetooth turned on		Connected to a Bluetooth device
	Battery is full		Battery is partially drained
	Battery is low		Battery is very low
	Battery is charging		
	Location service turned on		Using location service
	Speakerphone turned on		Headset with MIC connected
	Vibrate mode		Phone mic is mute
	Scanner turned on		Alarm is set
	Default input mode		

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Learning the basics

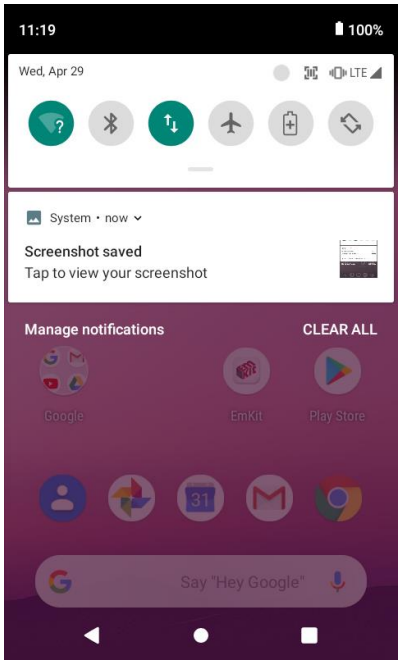
Notification Icons

Icon	Description	Icon	Description
	New Email		Connected to VPN network
	Upcoming event		Screenshot captured
	App update available		App updated
	Preparing SD card		SD card removed, unexpectedly
	OTG device connected		Other input method available
	File uploaded		File downloaded
	File copied		
	There are more notifications		

Notification Panel

Notification panel displays a list of all notifications. You can respond to a notification by tapping it. To open the Notification panel, drag the Status bar down. If you want to close the panel, swipe it up.

Figure 16 Notification panel



©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

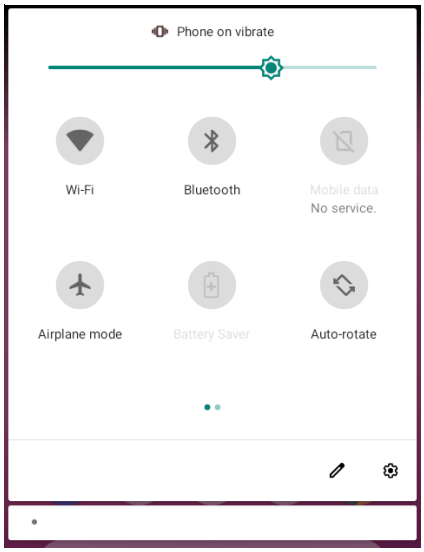
Learning the basics

Quick Setting Panel

In Quick setting panel, you can easily control some frequently used settings such as Wi-Fi, Bluetooth. To use the Quick setting panel,

1. Open the Notification panel
2. Drag down the Notification panel

Figure 17 Quick setting panel



3. Tap a setting icon to enable / disable the setting or long-press an icon to see more detail

If you want to edit the configuration of Quick settings panel,

1. Touch ✎ on the bottom of the Quick setting panel
2. By long-press and dragging the icon, you can customize the configuration of the panel

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

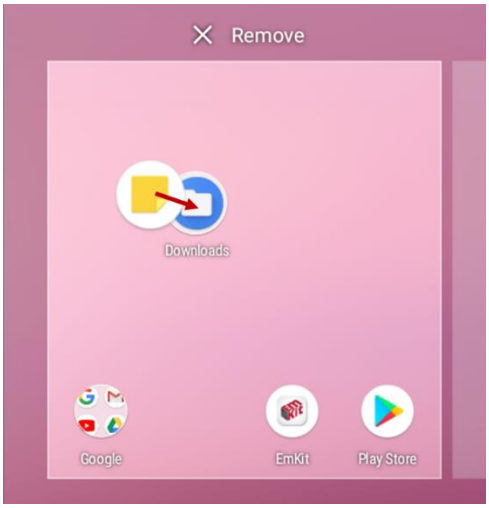
Learning the basics

Apps & Widget

App Folder

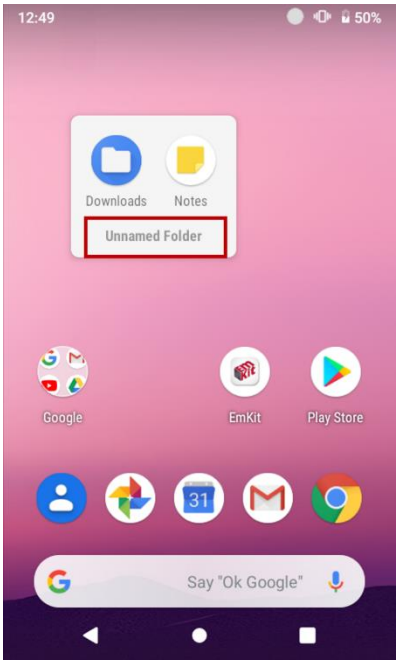
To create the app folder, long-press an app icon and drag it to another app icon.

Figure 18 Create app folder



If you want to set the folder name, tap the **Unnamed Folder** and input a new name.

Figure 19 Set app folder name



©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

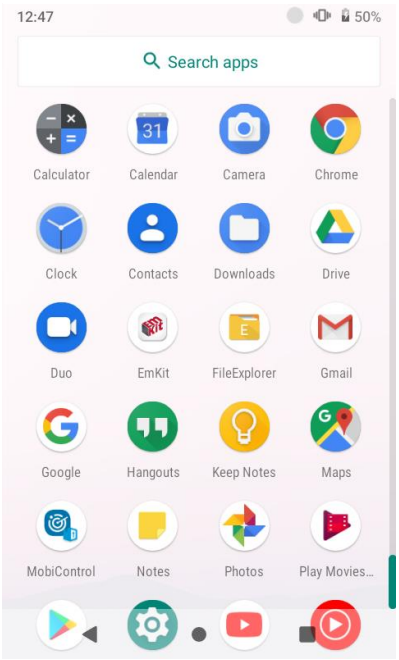
Learning the basics

App Drawer

All installed apps are listed alphabetically in App drawer.

- To open the App drawer, swipe up the Home screen
- To close the App drawer, swipe down the screen

Figure 20 App drawer



Favorites Tray

To organize an app in the Favorites tray,

1. Long-press an app icon from the App drawer. Then, drag it slightly until the Home screen is shown.
2. Place the app icon in the Favorites tray.
   (If a toast message which means there is no room in the Favorites tray, remove an app you don't need from the tray.)

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

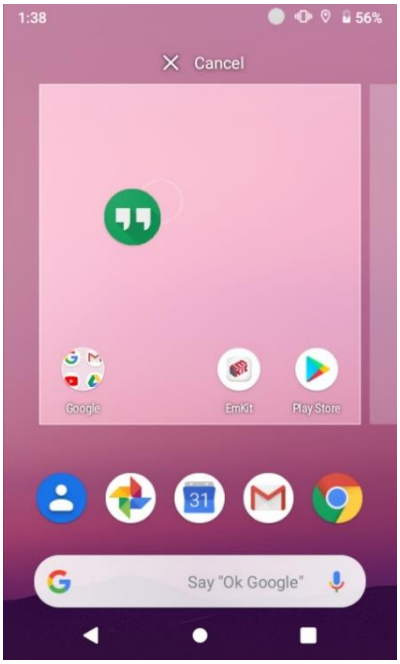
Learning the basics

Organize App in Home screen

To organize an app in the home screen,

1. Long-press an app icon from the App drawer. Then, drag it slightly until the Home screen is shown.
2. Place the app icon where you want
   (If you want to cancel to place the app, drag it to **Cancel** area and release)

Figure 21 Place app in Home screen

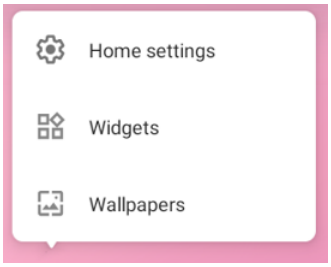


Widget

To add a widget in the Home screen,

1. Long-press the empty space of the home screen
2. You can see the three menus, **Home settings**, **Widgets**, and **Wallpapers**

Figure 22 Widget menu

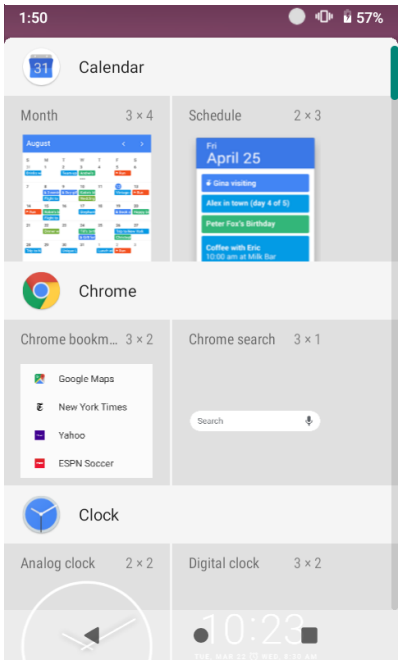


©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Learning the basics

3. Tap **Widgets**
4. Among the list, tap and hold the widget you want to add

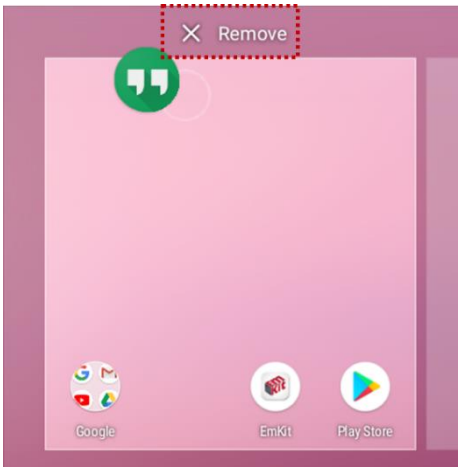
Figure 23 Widget list



5. Place the widget to the Home screen by dragging

Note: *To remove an app or a widget from the Home screen, long-press and drag it to* ***Remove*** *area.*

Figure 24 Remove from Home screen



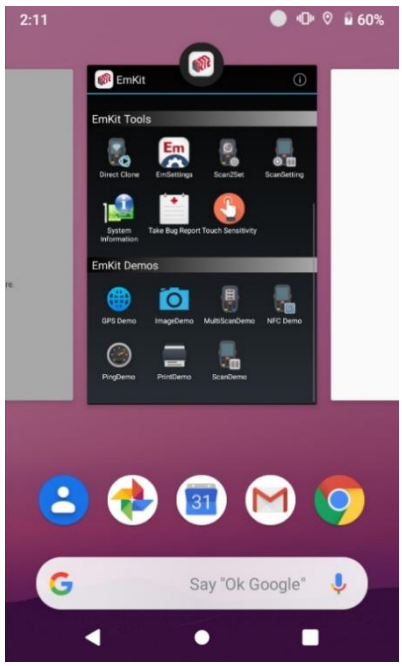
©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Learning the basics

Recently Used Apps

Tap **Recent apps** button on the bottom of the screen to see recently used apps. You can open an app from the list, or completely close the app by swiping it up.

Figure 25 Recently used apps



©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

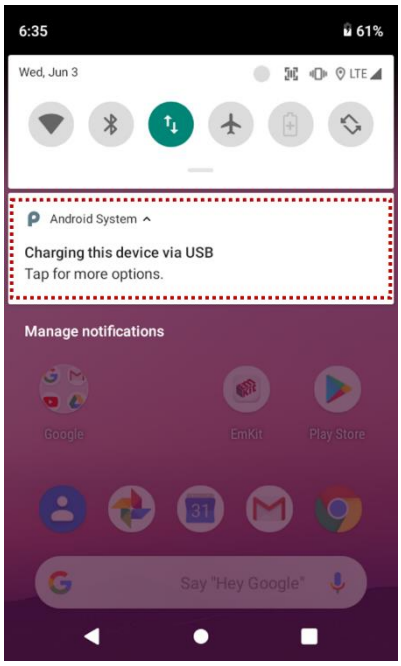
Learning the basics

MTP Connection with PC

To transfer the files with your PC, connect the device to PC via USB cable first.

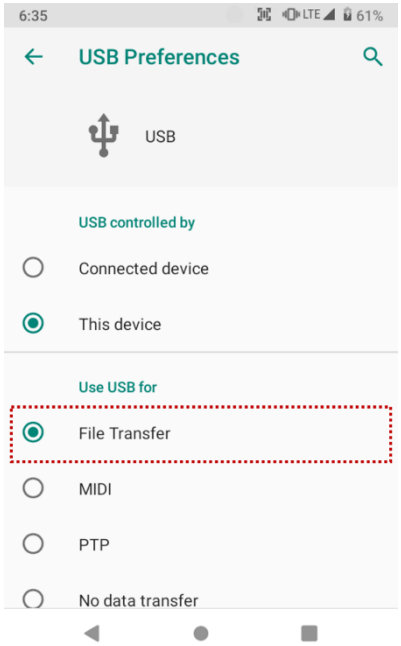
1. Drag down the Status bar and tap **Android System** notification to change USB preference option

Figure 26 USB connection notification



2. Change the option to **File Transfer** from **No data transfer**

Figure 27 USB Preferences setting



©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Learning the basics

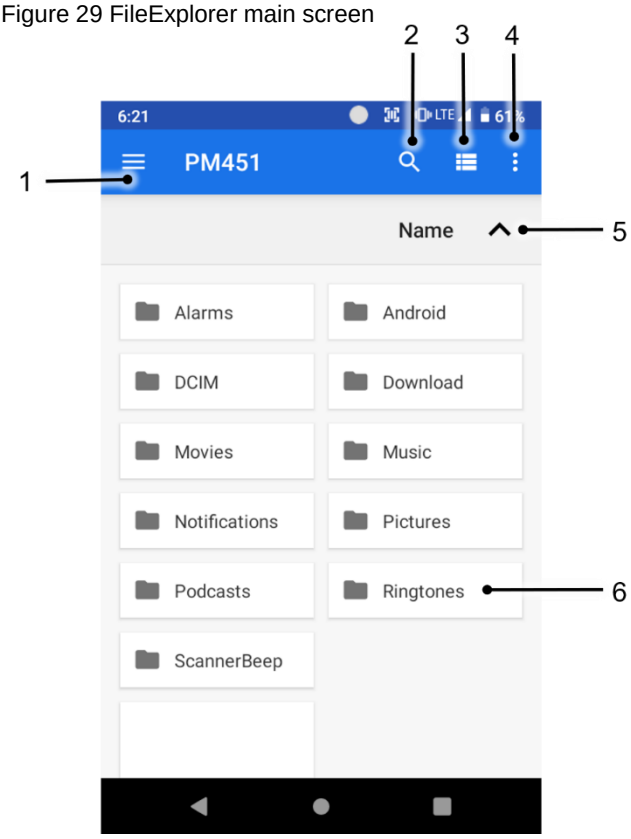
3. Now your PC recognize the connected device. In file explorer, you can find PM451 device.

Figure 28 File explorer on PC

Manage Files and Folders

To manage or share the files on the device, open **FileExplorer** in App drawer.

Figure 29 FileExplorer main screen



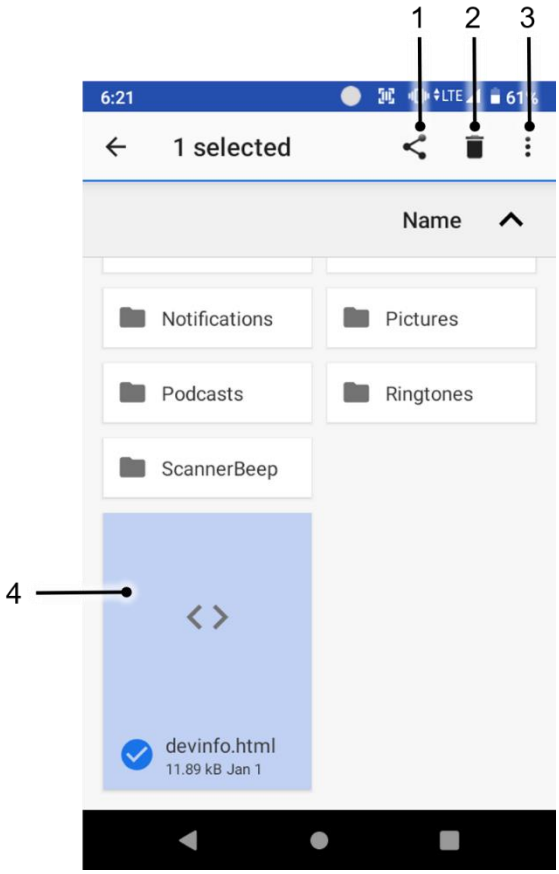
No	Description
1	Select media file type or storage
2	Search a file
3	Change the view of file list
4	Open the advanced option – Create a new window or folder / Select all files and folders
5	Change the sort – Name / Modified / Type / Size
6	Tap a file or folder to open. Or long-press a file or folder to select

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Learning the basics

When you long-press a file or folder, the screen changes like below.

Figure 30 FileExplorer screen when file selected



No	Description
1	Share the file via Android Beam / Bluetooth / Gmail / Google Drive, etc. Sharing is possible only with files
2	Delete the files or folders
3	Open the advanced option - Open with: Select which app to open the file - Select all: Select all files and folders - Copy / Move to: Copy or move the file to a new location - Compress: Create Zip file with the selected files or folders - Rename: Rename the file or folder
4	Selected file or folder is highlighted

Learning the basics

Settings

There are two ways to go to **Settings**:

- Open the App drawer and tap **Settings**
- Open the Quick setting panel and tap gear icon

Adjust Display Brightness

To adjust the display brightness level,

- Open Quick setting panel and adjust display brightness bar
- Go to **Settings** > **Display** > **Brightness level**

You can also adjust the brightness using the keypad. See Keypad – Functions.

Figure 32 Normal brightness level

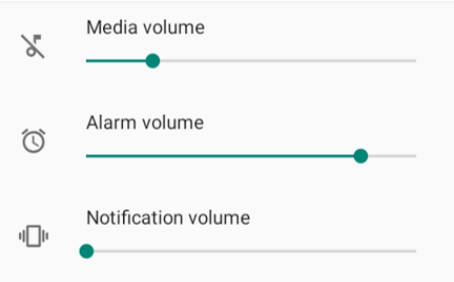
Figure 31 High brightness level(higher than 80%)

Caution: *Using high brightness levels for long periods may cause eye strain and increase battery consumption.*

Adjust Sound

To adjust sound volume, go to **Settings** > **Sound** and control the Media, Alarm, Notification volume bars. You can also adjust the volume using the keypad. See Keypad – Functions.

Figure 33 Volume bar



Caution: *Using high volume levels for long periods may cause ear strain and increase battery consumption.*

Learning the basics

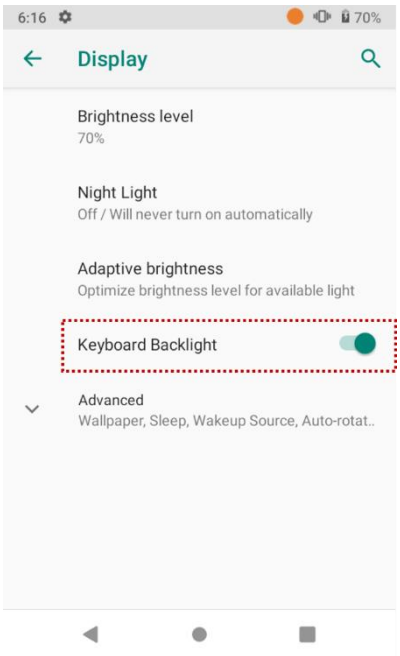
Use Keyboard Backlight

The buttons in the keypad may not be visible in the dark. For this inconvenience, PM451 have keyboard backlight so that you can find the proper keys easily.

To use the keyboard backlight,

1. Go to **Settings** > **Display**
2. Tap **Keyboard Backlight** toggle button

Figure 34 Keyboard Backlight



You can adjust the brightness of the keyboard backlight with the keypad. See Keypad – Functions.

Adjust Font Size

If the font size of the screen is too small or too large for you, you can set the size.

1. Go to **Settings** > **Display**
2. Tap **Advanced**
3. Tap **Font size**
4. Referring to the **Preview**, set the font size.

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Learning the basics

Use a Camera

PM451 have a camera on the top of the device.

To use the camera, open App drawer and tap Camera application .

Figure 35 is a main screen of Camera application, and **Figure 36** is a screen that is displayed when you swipe the screen to right.

Figure 35 Camera main screen

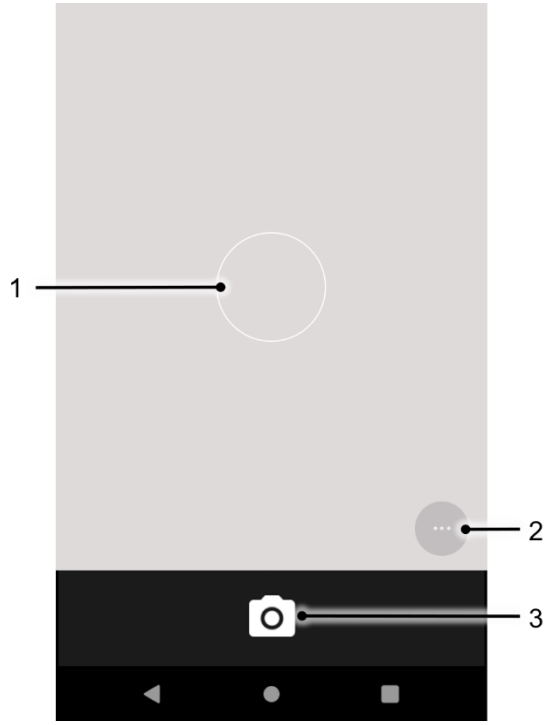


Figure 36 Camera mode change/setting screen

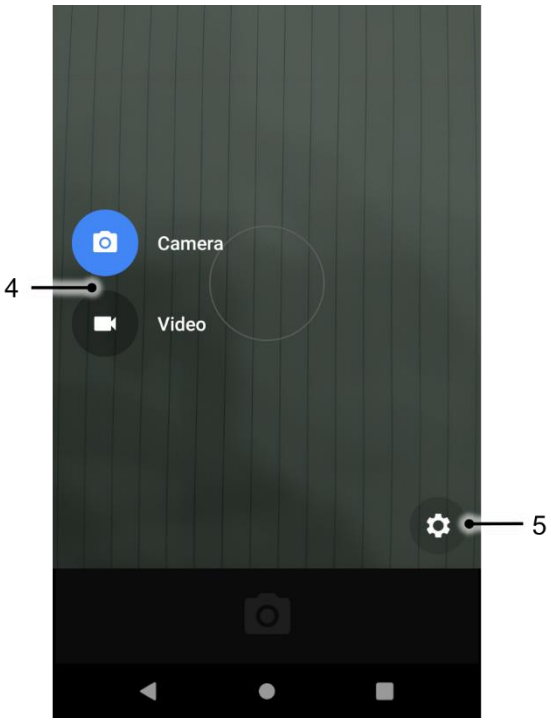

No	Name	Description
1	Focus zone	You can change the focusing area by touching the other area
2	Advanced camera option	: Set timer : Display the grid on the screen : Activate or Deactivate HDR : Set flash mode (Activate / Deactivate / Auto mode)
3	Shutter button	Take a picture or recode a video
4	Mode change button	Change the Camera or Video mode
5	Advanced camera setting	Set resolution & quality of picture Enable / Disable saving location and manual exposure

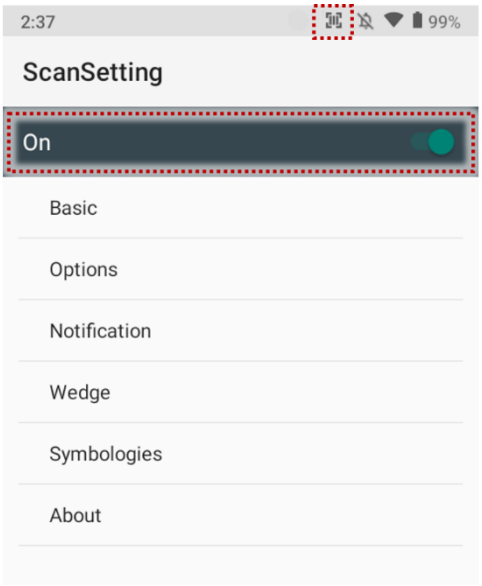
Scanner

Turn on the Scanner

The scanner is disabled by default. If you want to enable the scanner, follow the steps.

1. Go to **EmKit** or **Settings** and tap **ScanSetting**
2. Tap toggle button to turn on/off the barcode scanner
3. Check if the scanner icon( ) is placed on **Status bar**.

Figure 37 Enable the Scanner



ScanSettings

If you turn on the scanner, scanner setting menus will be displayed. **ScanSetting** consists of

- **Basic**
- **Options**
- **Notification**
- **Wedge**
- **Symbologies**
- **About**

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Scanner

Basic

In **Basic**, you can set the **Scanning** option and **Wedge mode** option.

1. **Scanning**
   - You can change the scanner's **trigger timeout** and set **Auto scan** & **continuous scan**.
   - You can use **TouchScan,** which is a software scanner button. Place a scan icon in any position and tap the icon to read a barcode.

Figure 38 ScanSetting - Basic

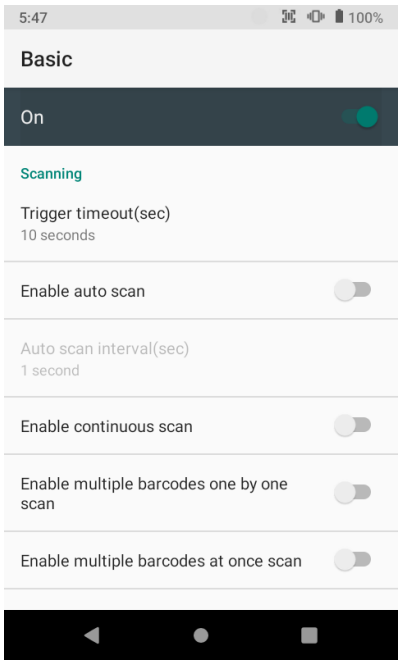


Figure 39 ScanSetting - TouchScan

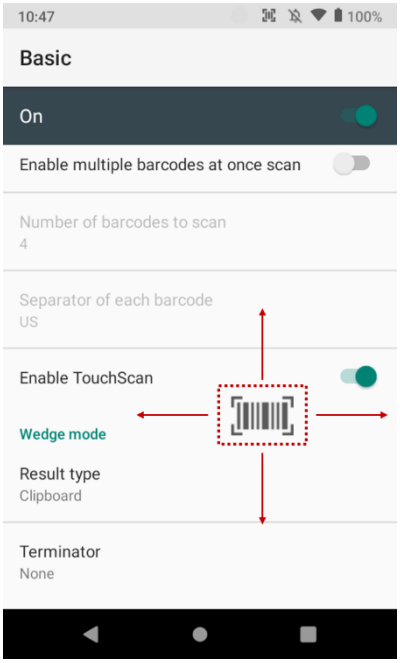


2. **Wedge mode**
   - You can change decoded scan data's **result type** handling 'User Message', 'Keyboard Event', 'Clipboard', or 'Intent Broadcast'. Also, you can set **Terminator** as ‘None’, ‘Space’, ‘Tab’, ‘LF’, ‘Tap & LF’.

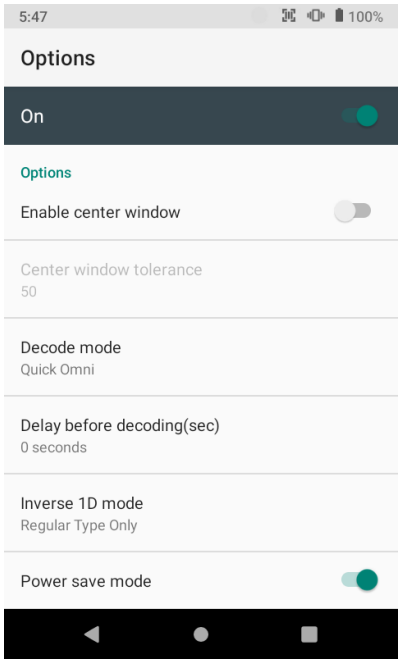
©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Scanner

Options

In **Options**, you can enable/disable the **center window** & **Aimer** & **Illumination** and set **Decode mode** & **Power save mode**.

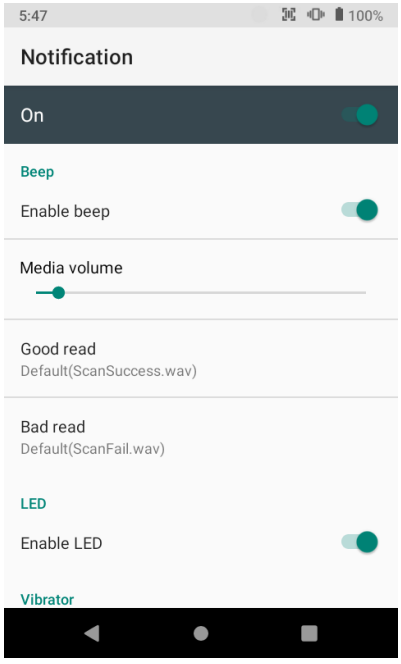
Figure 40 ScanSetting - Options



Notification

In **Notification**, you can change or control the **beep sound**, and manage **LED** and **vibration** option

Figure 41 ScanSetting - Notification



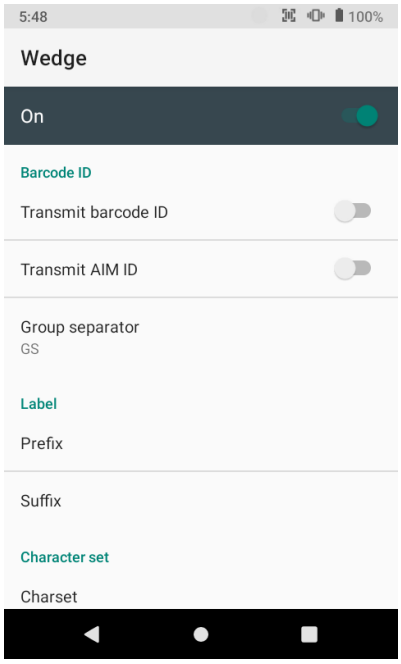
©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Scanner

Wedge

In **Wedge**, you can enable/disable the **Barcode ID** and **Aim ID**, set **Group separator**, **Prefix & Suffix**, **Character set** and **Extended Wedge**

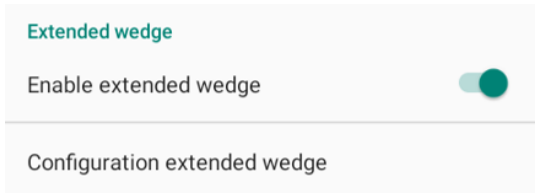
Figure 42 ScanSetting - Wedge



Extended Wedge

PM451 supports Extended wedge that allows you to edit the decoded data. Tap **Enable extended wedge** toggle button, and then set a rule in **Configuration extended wedge**.

Figure 43 ScanSetting - Extended wedge



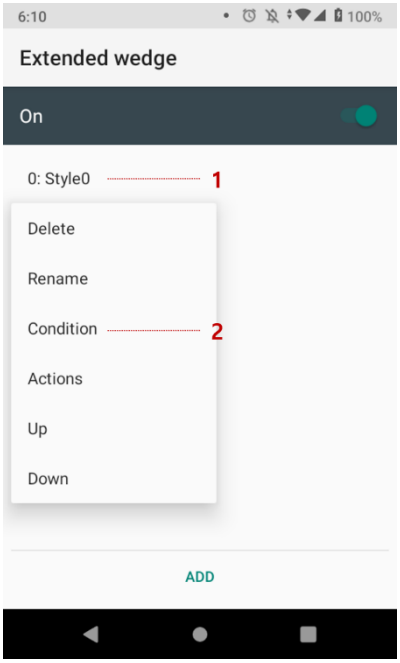
©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Scanner

For example, if you want to add "Point Mobile" at the start of decoded data whenever decoding CODE128,

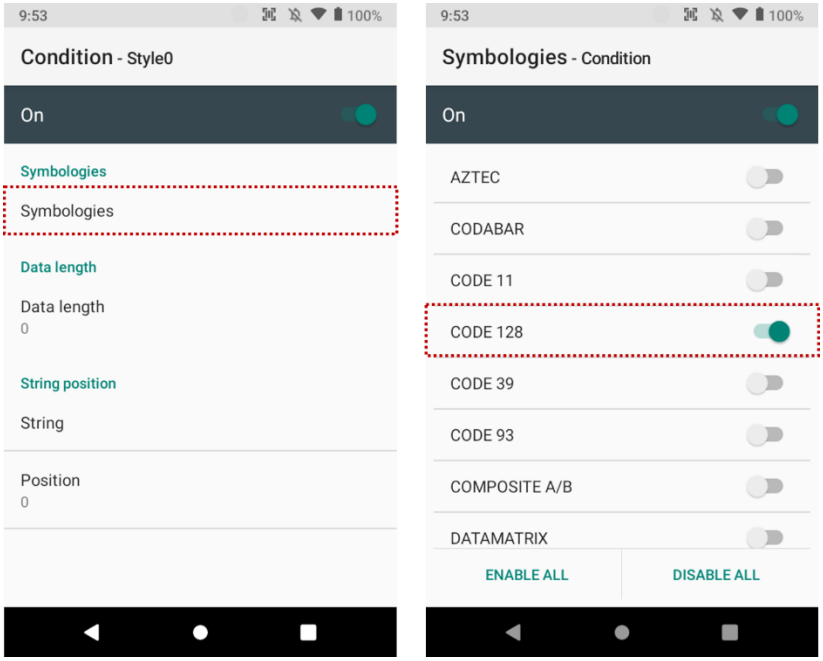
1. Tap **Style**(1) and select **Condition**(2).

Figure 44 Extended wedge example_1



2. Tap **Symbologies** and select **CODE128** between the symbologies.

Figure 45 Extended wedge example_2

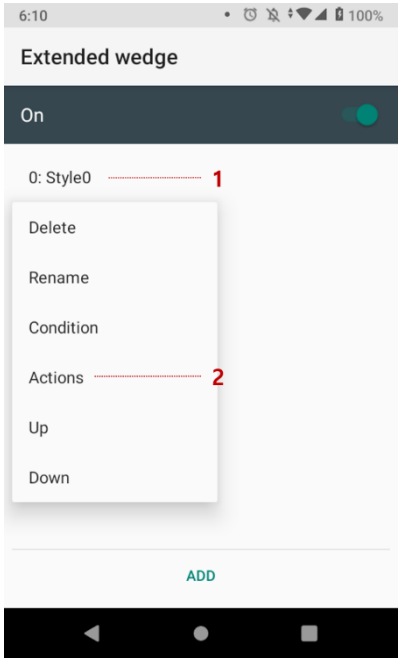


©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Scanner

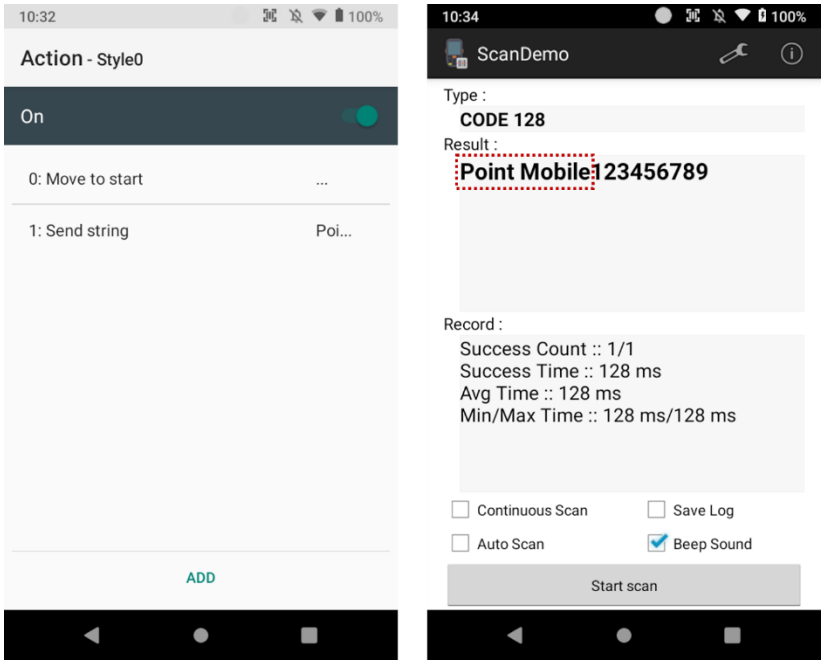
3. Tap **Style**(1) and select **Actions**(2)

Figure 46 Extended wedge example_3



4. Tap **ADD** and select **Move to start** to point the start of the decoded data. And then, add another action of which **action type** is **Send string** and set **value** as "Point Mobile". Now you can get decoded data with "Point Mobile" text.

Figure 47 Extended wedge example_4



©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Scanner

Symbologies

In **Symbologies**, you can enable/disable specific barcode type or set a detail option. By tapping each symbology name, you can set detail option.

Figure 48 ScanSetting - Symbologies

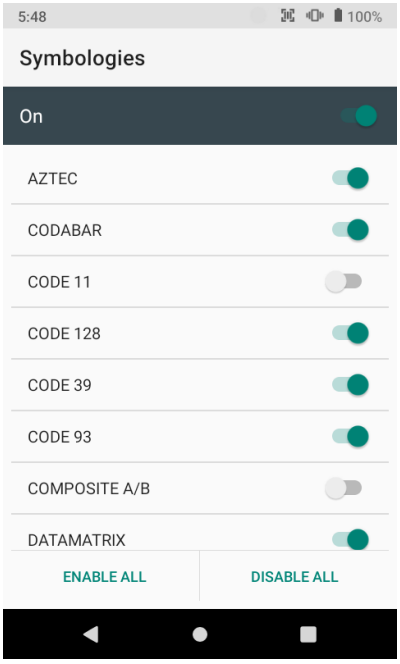


Figure 49 ScanSetting - Select a symbology

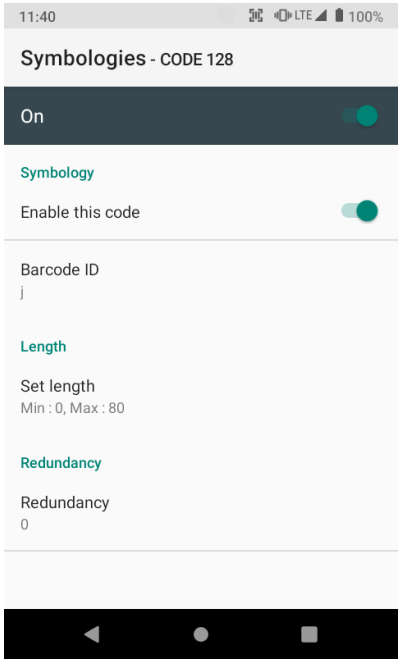
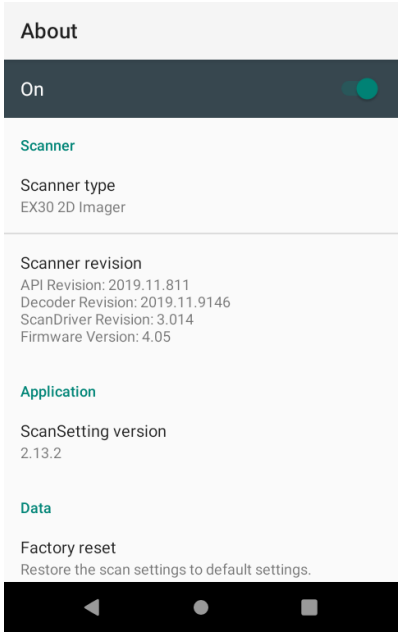


About

In **About**, you can find your Scanner's information and restore Scanner's settings to default.

Figure 50 ScanSetting - About



©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

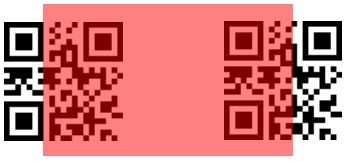
Scanner

Scan a barcode

Idle barcode scan

- Please aim the middle of barcode.

- Even you aim the barcode slightly upper or down area, or angle is slightly tilted, you can read the barcode.



Bad example of barcode reading

- If you aim the barcode wrong direction or tilt too much, you can't read the barcode.

- If you aim part of barcode, you can't read the barcode.

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Scanner

ScanDemo

After turning on the scanner, you can test the scan feature with ScanDemo.

1. Execute **EmKit** > **ScanDemo**
2. Scan a barcode by pressing the scan button
3. Find scan result

Figure 51 Scan Demo

Wireless

Mobile Network (LTE SKU Only)

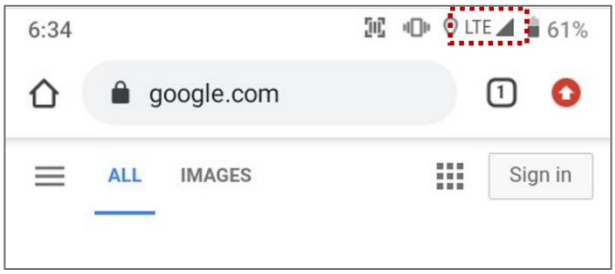
To connect Mobile network,

1. Insert a micro SIM card to SIM slot. Refer to Install SIM card & SD card

   Caution: *Use micro SIM card only.*

2. Check if the LTE icon(LTE) appeared on the status bar. Then, try to access the internet.

Figure 52 LTE icon



You can find the network information and adjust the network settings in **Settings** > **Network & internet** > **Mobile network**. This setting menu can also be accessed by long-press the Mobile data icon in Quick setting panel.

Figure 53 Mobile network setting

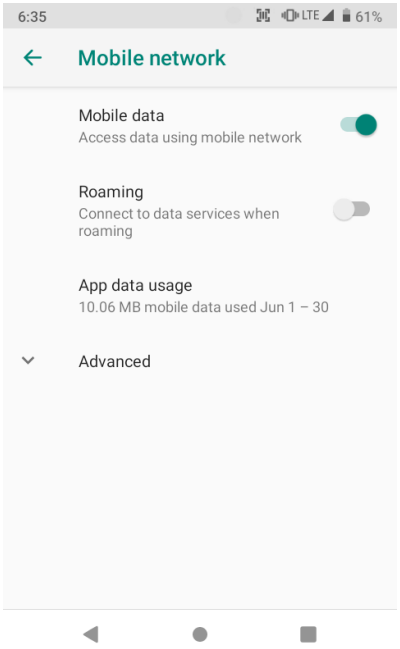


Figure 54 Mobile network icons on status bar

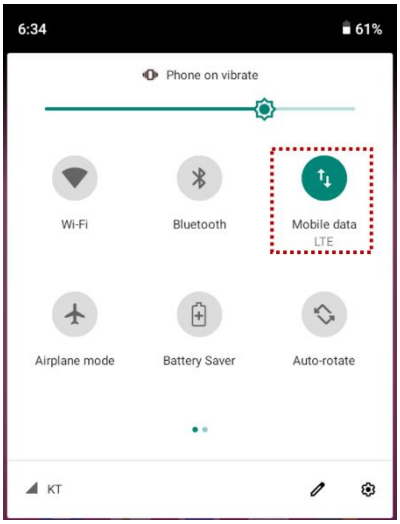

Note: PM451 LTE SKU can connect to mobile network but can't do calling.

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

Wireless

Wi-Fi

1. Go to **Settings** > **Network & internet** > **Wi-Fi**
2. Tap toggle button to enable Wi-Fi
3. Device searches for nearby Wi-Fi signals and each SSID listed by signal strength
4. Select a Wi-Fi SSID you want to connect
5. The message **Connected** under the SSID means the device complete to connect to the Wi-Fi

Figure 55 Wi-Fi connected

Note: *There are Open Wi-Fi network and Secured Wi-Fi network. You can tell those apart by lock icon ( ) in the nearby Wi-Fi list. To connect the Secured Wi-Fi network, you need to enter the password.*

Figure 56 Open Wi-Fi Network

Figure 57 Secured Wi-Fi Network

System Maintenance

System Information

There are two locations for checking system information.

On Settings

You can find the following information in **Settings** > **About phone** ,

- Device name
- Legal information & Certificates
- Model & hardware
- IMEI & SIM status (LTE SKU only)
- Hostname
- Android version
- IP address
- Wi-Fi MAC address
- Bluetooth address
- Build number

On EmKit

You can find the following information in **EmKit** > **System Information**,

- Processor information
- Version information (Android version, OS image version, SDK version, etc.)
- Manufacturer information (Serial number, Part Number, etc.)
- Device information (Camera, Audio, display, etc.)
- Battery information (Battery charging status, etc.)
- Application Version info (Version of Demos and Tools)

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

System Maintenance

OS Update

To improve the performance of your device, Point Mobile provides up-to-date OS(Operating System) version. You can update your device via storage, OTG port, and FOTA server. Depending on your workspace environment, choose one of the methods to update the OS.

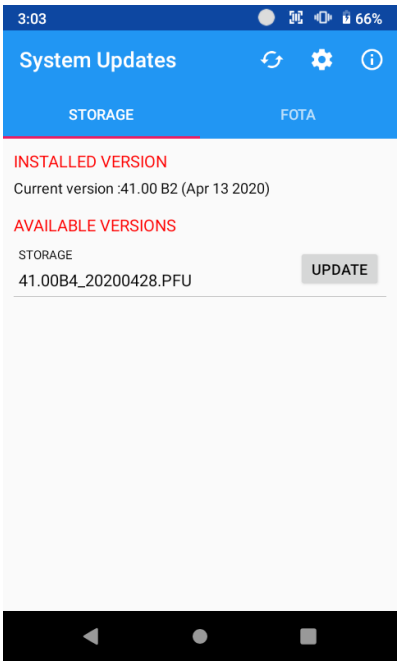
Note: *Please backup your data before starting the update process.*

OS Update via Storage

To update the OS using storage,

1. Download an OS image file into the root folder of microSD card or device internal storage
2. (In case of using SD card) Insert SD card to the device and then turn the device on
3. Go to **Settings** > **System** > **Advanced** > **System Update**
4. Check if the OS image file shows up in **AVAILABLE VERSIONS**

Figure 61 OS update via storage



5. Tap **UPDATE** to start the update process

Note: *If the OS image file doesn't show up in* ***AVAILABLE VERSIONS****, check the file is placed in the root folder of storage. System only can recognize the file in the root folder.*

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

System Maintenance

OS update from OTG Port

PM451 supports the USB OTG feature.

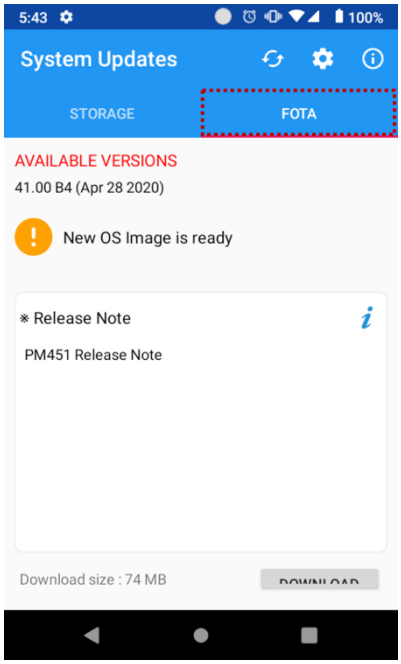
1. Prepare a formatted USB flash drive for OS update
2. Copy OS image file to the root folder of the flash drive
3. Connect the flash drive to the PM451
4. Go to **Settings** > **System** > **Advanced** > **System Update**
5. Check if the OS image file shows up in **AVAILABLE VERSIONS**
6. Tap **UPDATE** to start the update process

OS update via FOTA

If you can connect the network, you can use the FOTA server for the update.

1. Go to **Settings** > **System** > **Advanced** > **System Update**
2. Tap **FOTA** tab or Swipe left to move to **FOTA** tab. If there is an OS version newer than device's one, the server shows the new OS information

Figure 62 FOTA update tab



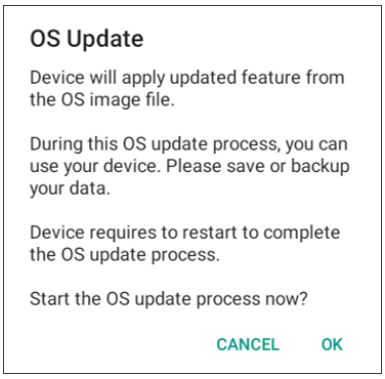
3. Tap **Download**

©2006 – 2020 POINTMOBILE Co., Ltd. All rights reserved

System Maintenance

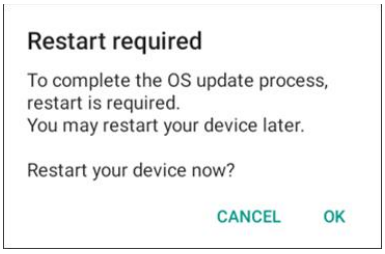
4. Tap **OK** on the **OS Update** dialog to start to download the OS image file

Figure 63 OS Update dialog



5. When completing the download, you may restart the device. Tap **OK** on the **Restart required** dialog to restart the device.

Figure 64 Restart required dialog



Note: *Basically, you can download OS image file over Wi-Fi or Ethernet only. If you want to download over Mobile Network too, change the setting value in FOTA Settings. Downloading over the Mobile network may result in additional charges.*

System Maintenance

Factory Data Reset

When you have a problem with your device or want to reset your device, follow the steps below to do a factory data reset.

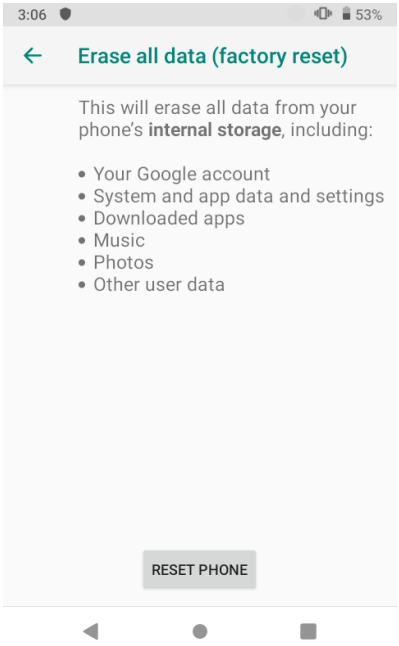
***Caution**: Factory data reset will erase all personalized settings and data saved in your phone, such as Google account, apps, user data, etc. And factory data reset cannot undo.*

Factory Data Reset via Settings app

If you can turn on the device and can access the Settings app,

1. Go to **Settings** > **System** > **Advanced** > **Reset options**
2. Tap **Erase all data (factory reset)**
3. After being aware that factory reset will erase all data from the internal storage, Tap **RESET PHONE**

Figure 66 Factory reset screen



4. Tap **ERASE EVERYTHING** to start the factory reset process

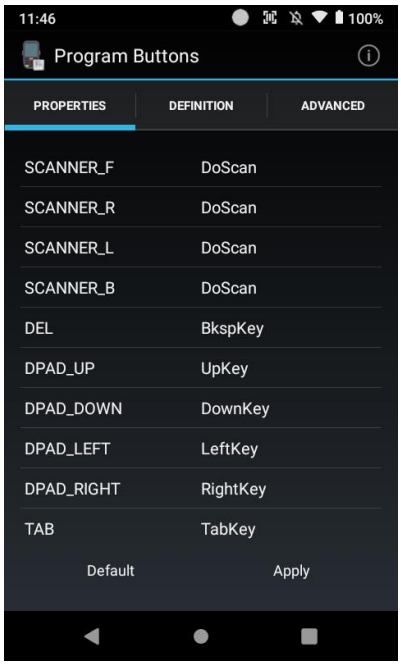
Program Buttons

Point Mobile provides a solution that allows keys to be mapped to other functions or applications. To use the solution,

1. Go to **EmKit** > **Program Buttons**
2. Select a key that you want to remap
3. Select a desired function or application in the list
4. Tap **OK**
5. After changing all key mapping, tap **Apply** to save the changes

Figure 76 Program Buttons_Properties



You can set the grid configuration of Symbols key in keypad with Program Buttons, too. To set the grid,

1. Move to **ADVANCED** tab
2. Tap a cell of the grid you want to change
3. Input the keycode of the desired symbol in the dialog
4. Tap **OK** on the dialog
5. After changing the configuration of grid, tap **Apply** to save the changes

Safety Information

Please note PM451 is battery-embedded design with a removable battery. Unauthorized personnel are strictly prohibited from disassembling the device.

In case your device does not work as expected, you are strongly recommended to restart it by pressing and holding the power button for at least 12 seconds until the startup screen appears. If your phone has encountered a serious error and cannot be recovered, you should reset your phone to factory settings. For more details, please refer to Factory Data Reset.

***Caution**: Factory data reset will erase all personalized settings and data saved in your phone, such as Google account, apps, user data, etc. And factory data reset cannot undo.*
