SUNMI L2Ks Smart Mobile Terminal `New`

Define a new classic for indoor applications and beyond.

Lightweight

Designed for one-handed operations, L2Ks is light and ergonomic, to boost your efficiency anywhere.

Better protection ratings

To withstand everyday usage, L2Ks is 1.8m drop resistant, IP68 rated and has passed 3000 0.5m tumble tests.

ATL large-capacity battery, safe and durable

Equipped with a ATL battery cell, L2Ks features 800 charge cycles. The removable 5000mAh large-capacity battery can stand for up to 2 shifts. A new auxiliary battery helps eliminating downtime when changing the main battery.

Professional scan engine

High speed — 10 scans/sec; long reach — up to one meter read distance; accurate — read just the barcode the laser aimer positioned; reliable — quickly read hard-to-read barcodes including scratched, stained, crinlked barcodes or DPM barcodes, etc.

User-centric design

The optimized button design and scan angle, accidental touch protection for the power button, and user-facing speakers all contribute to a better user experience.
